CERTIFICATIONS

IOS APP DEVELOPMENT WITH SWIFT Passed 2021 | Udemy

Flutter Developer Certification Passed 2023 | Udemy

PROJECTS

AKRIVIA HCM 2021–2024

- Akrivia HCM is an all in one HRMS software that helps you streamline and automate the entire journey of an employee, from hire to retire. It tightly integrates the power of 9 products like recruitment management, employee engagement, performance management, time & attendance management, and payroll.

Akrivia Facttwin 2021–2022

- Facttwin revolutionises the manufacturing sector with its state-of-the-art Industrial IoT platform. By enabling real-time monitoring, predictive maintenance, and comprehensive production management, it empowers businesses to make better decision and increase productivity.

PROJECTS

INNOCLIQUE - Calmscient 2024-2024

- Calmscient provides integrated behavioural health care that connects mental health and primary care, empowering patients to lead healthy, fulfilling lives. It supports health care systems and offers personalised care for each patient's well-being, fostering physical, mental, and emotional health through compassionate, collaborative care for a healthier community.

INNOCLIQUE - Ex-im 2024-2025

- This app focuses on providing technology for foreign trade, with an emphasis on the future of Ex-Im (Export-Import) services helping businesses to manage them.
- It provides tools for tracking shipments, analyzing trade data and optimizing logistics.

INNOCLIQUE - Clarity Mirror 2025-Present

- Clarity mirror analyzes skin and hair health using face scanning technology, allowing user to track progress over time. It also feature real-time beauty tools like virtual lipstick and foundation try-ons, alongside an e-commerce section for skincare and haircare products.
